# Rishitha L. Shilpa

UI/UX Designer & Developer · Graphic & Digital Design · AI Creative

Nottingham, UK (open to relocating) · rishitha.lak@gmail.com · +44 7404 979513 · rishluck.github.io/Rishitha_portfolio

## PROFESSIONAL SUMMARY

A multidisciplinary designer and developer with over five years of experience across UI/UX design, graphic and brand design, digital marketing, front-end development and AI-driven creative. I design intuitive, user-centred products in Figma, from research and user flows through wireframes and prototypes to polished, accessible UI, and I create strong visual work across brand identity, packaging, social media, print and campaigns in Adobe Creative Suite. On the build side, I develop responsive websites in HTML, CSS and JavaScript, and I design and ship web and mobile apps using AI-assisted development (vibe coding). I also produce AI-generated images, video and animation to support design, content and marketing. I combine creative craft with a commercial, data-informed mindset, and my work delivers measurable results, including a 25% lift in repeat purchases and 30% month-on-month organic traffic growth on a recent e-commerce redesign.

## CORE SKILLS

- **UI/UX design:** user research, personas and journey mapping, user flows, information architecture, wireframes, interactive prototypes, usability testing, iterative design, mobile-first and responsive design, design systems and component libraries, accessibility and inclusive design (WCAG).
- **Graphic & brand design:** brand identity and logo design, visual systems and brand guidelines, packaging design, social media content, posters, brochures, flyers, presentations and print-ready artwork, with a strong eye for typography, colour, layout and visual hierarchy.
- **Digital marketing:** social media campaigns and content, email and newsletter design, landing pages and banners, campaign assets, and using analytics and customer insight to improve engagement, conversion and retention.
- **Development:** HTML5, CSS3, JavaScript and React; responsive, cross-browser front-end build; WordPress and Shopify; building and shipping web and mobile apps using AI-assisted development (vibe coding).
- **AI creative & tools:** AI-generated images, video and animation for design, content and marketing; day-to-day use of Midjourney, Higgsfield, Runway, Claude, ChatGPT and Cursor, alongside Figma, Sketch, Adobe Creative Suite (Illustrator, Photoshop, InDesign) and Canva.
- **Ways of working:** client-facing from brief to launch, agile and cross-functional collaboration with developers and marketing, presenting and explaining design decisions, and managing several projects to deadline.

## EXPERIENCE

### Freelance Designer & Developer

2023 to Present, Nottingham

- Deliver end-to-end design and build for clients across retail, food, fashion, hospitality and automotive: UI/UX, brand identity, packaging, social media and campaign assets, through to responsive websites and apps.
- AI-assisted development: design and ship web and mobile apps using AI-assisted (vibe-coding) workflows alongside HTML, CSS, JavaScript and React, building working products quickly.
- AI creative: produce AI-generated images, video and animation to support brand, content and campaign work.
- Work directly with clients from discovery and concept through to launch, running a strategy-first process and using insight and feedback to improve engagement, conversion and brand consistency.
- Manage multiple projects and deadlines independently, and provide ongoing support, updates and improvements after launch.

**UX/UI & Digital Designer** · Dr Paul (pet wellness e-commerce, London) 2024 to 2025

- Owned the end-to-end redesign of the brand's e-commerce website, from research and user journeys through wireframes and prototypes to final responsive, accessible UI.
- **Result:** drove a 25% lift in repeat purchases and 30% month-on-month organic traffic growth through improved usability and conversion.
- Directed product and lifestyle photography, and designed on-brand social media, email and campaign content to keep the experience consistent across channels.

**UI/UX Engineer** · Elegant Media 2021 to 2023, remote

- Designed UI/UX for websites and mobile apps across 20+ live projects for international clients in Australia, New Zealand, the US and Sri Lanka, working to different cultural and brand expectations.
- Created wireframes, interactive prototypes and high-fidelity designs in Figma, and contributed to design systems and reusable components for consistency and scale.
- Collaborated closely with developers and project managers to ensure accurate implementation, and supported the marketing team with social media and campaign design.
- Presented concepts to clients and internal stakeholders, and iterated designs based on feedback in a fast-paced remote environment.

**PHP Developer Intern** · Apple Holidays Destination Services 2020, Sri Lanka

- Supported development of a travel booking platform using PHP and MySQL, gaining early hands-on experience of how design translates into working software.

## SELECTED PROJECTS

- **Dr Paul:** conversion-focused e-commerce redesign driving a 25% repeat-purchase uplift and 30% month-on-month traffic growth.
- **ReadWave:** UI/UX case study for a content and reading platform, from user flows and wireframes to final UI.
- **E-commerce (Vitly, AURIS):** mobile-first Shopify stores with supporting campaign and social content.
- **Brand & packaging:** identities, packaging and visual systems across food, hospitality and automotive clients, including Horen Foods and Pillar Box.
- **Web & apps:** responsive websites and app concepts built with front-end code and AI-assisted development.

## EDUCATION & CERTIFICATIONS

- BSc Information Technology, Sri Lanka Institute of Information Technology (SLIIT), specialism in Information Systems Engineering.
- Foundations of User Experience (UX) Design, Google.
- HTML, CSS and JavaScript for Web Developers, Coursera.
- Full UK Driving Licence.
